smith shop, Astoria, Oregon.

The Chicago Wheat Deal.

CHICAGO, June 9.—The *Inter Ocean* says: The regular Chicago elevators are now practically inaccessible to grain while the prices of wheat are up, and more shipments are coming. It is estimated that 23,000,000 bushels have been refused storage room in Chicago, and there are 22,000,000 bushels of grain in store. The average daily business in handling of receipts and shipments of grain is about 2,000,000 bushels. This leaves 4,000,000 bushels' storage room yet unoccupied; but this is all well held and unobtainable by the shorts. The result of this closing of facilities for storage has been to close up two railroads for receipt of grain, and possibly three roads more will be so blocked as to stop handling it.

The result has been to bring the matter before the directors of the board of trade, and they have appointed a committee to see if some means cannot be adopted to prevent paralysis of trade here. With a few more western roads blocked up, and notice of stoppage served on shippers, the board of trade might as well shut up. The wheat clique could send prices up to a dollar a bushel and have it all to themselves.

Prominent members of the board blame the blockade to the railroads. They propose to have declared "regular" at the next meeting of the directors all small warehouses in the city. The main remedy in view, however, is to take measures, through the state board of warehouse commissioners, to compel the railroads to provide terminal facilities for the grain they accept.

The Tariff Problem.

WASHINGTON, June 8.—It is expected that speaker Carlisle will arrive here about a week after president Cleveland returns and then a conference will be held between the president, speaker Carlisle and secretary Fairchild as to the advisability of holding an extra session of congress, and also the form of a tariff bill will be considered.

The argument against an early session of congress to deal with the surplus question, is that if two wings of the Democratic party can agree upon a reduction of revenue at all, they can do it in a very short time. If they cannot agree, a long session would only amount to a prolonged series of hostilities.

Incidental protectionists do not want an extra session. It is not thought that secretary Fairchild will occupy such an aggressive position on the subject as Mr. Manning did in his last report. There is a general anxiety to settle all differences and to agree upon a plan of action, but the trouble is that both wings want to settle it according to their own plan, and this furnishes another reason why some are vigorously opposing the plan of an extra session.

St. Paul, June 8.—Thomas F. Oakes, general manager of the Northern Pacific railroad, has created some excitement in railroad circles by addressing a communication to the board of railroad commissioners of the state, claiming that it had no jurisdiction over his lines, and that they could not dictate what rates he should make. The ground he takes is that the road was incorporated by act of congress and is subject only to federal dictation.

A physician in Idaho thought he was administering ipecac to a patient, but it proved to be strychnine and the patient died. He should be admitted to membership in the didn't-know-it-was-loaded society.

An Indolent Organ.

When the liver is indolent, as it must necessarily be when it fails to secrete the bile in sufficient quantities to meet the requirements of digestion and evacuation, it should be set at work with Hostetter's Stomach Bitters. The healthful stimulus to activity imparted by this incomparable alternative, speedily evinces itself in a departure of the uncomfortable sensations in the right side; the nausea; for upon the tongue; indigestion, sick headache consequent upon inactivity of the liver and the diversion of the bile from its proper channel. Irregularity of the bowels is always and painlessly reformed by the corrective indicated, which is infinitely to be preferred, both because it is safe and more efficacious than blue pill, calomel and drastic purgatives of every class. It cures and prevents fever and ague, and rheumatism.

A Probable Strike.

SAN FRANCISCO, June 7.—The committee appointed by the journeymen fishermen to arrange with employers for a decrease in the number of hours of labor, performed its mission this morning, and the proprietors refused to accede to the demand. The union, at its last meeting, decided in case of this refusal to strike, and there will probably be a tie on the fish markets next week.

Held For Cancellation.

WASHINGTON, June 8.—The acting secretary of the interior affirms the decision of the general land office on appeal by defendant in the case of David Hogan against Godfrey Toothaker, holding that for cancellation his homestead entry No. 4593, of the northwest quarter of section 34, township 7 north, range 9 west, made in February, 1882, at the Oregon City land office in Oregon.

Schooner "Mischief" Wrecked.

CORVALLIS, June 7.—Information was received here to-day of the wreck of the schooner *Mischief* of Newport at Siuslaw. She left Newport a few days ago under sail, her boiler being out of order. In entering the harbor at Siuslaw she went ashore and has gone to pieces. She was a fine vessel, built last summer, and was owned by Capt. J. J. Winant of Newport and Warren Bros. of the Summit.

Junction, Or., can boast of a young widow not 25 years of age, who has three divorced husbands and is now in a fair way to get another. If there are any good men in the world she is determined to have them.

When baby was sick, we gave her Castoria. When she was a child she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

KEY WEST, June 8.—Two new cases of yellow fever have appeared since yesterday, and one death.

Prophylactic in Sickness.
"Typhoid Fever has broken out here again, but wherever Darby's Prophylactic Fluid has been freely used there has been no fever."—M. B. LASCASSE, P. M., Ed. Central Alabamian.
"The Fluid is not merely a deodorizer, but a disinfectant—a destroyer of the disease germs in an atmosphere which cannot be breathed without danger."—NEW YORK EVENING POST.

In Ohio within a year and a half, 182 natural gas companies have been organized with aggregate capital stock of about \$10,000,000.
